

Features

Special type of product that is designed to completely prevent dust, water and humidity from entering. The product is manufactured by using steel sheet that meets production standards and spray-painted with colored epoxy powder

Technical Data

- Rubber seal around gutter
- Internal mounting plate included
- Fixing earth stud enclosed
- Single door type

Major Applications

Dust Contaminated environments
Rain canopy against water

Specification

Material Steel sheet 0.8 mm. (model WP00-2)

for Enclosure Steel sheet 1.0 mm. (model WP3-7)

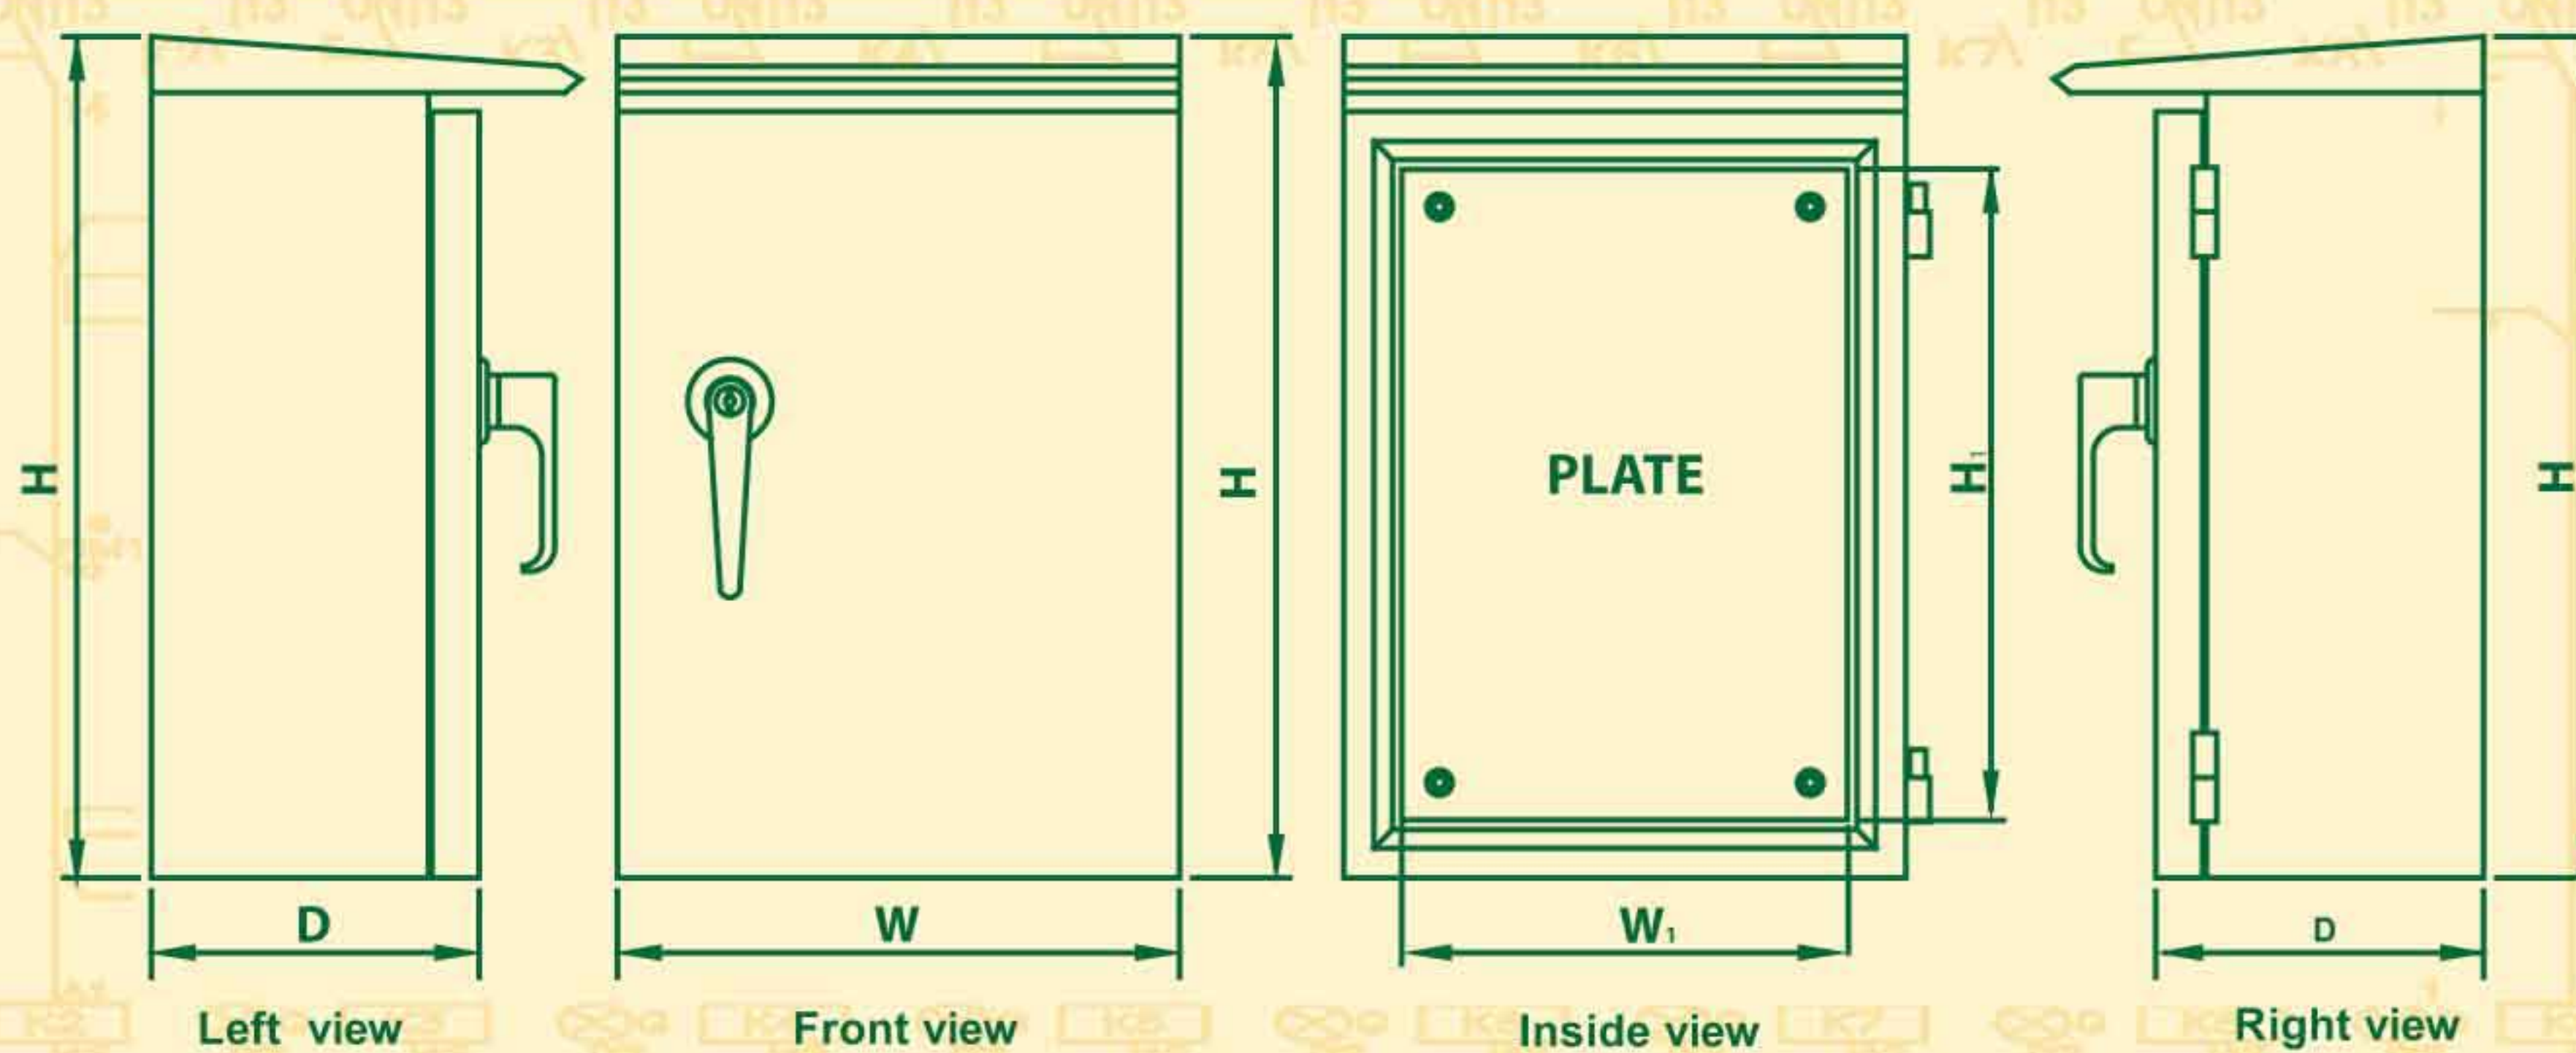

Anticorrosion solution-coated, Telegrey 1 color RAL 7045, Handle key switch 173-03,

Internal mounting plate

Degree of protection : IP45
